Plate Number _____ Depth _____

Rods Number _____ Depth _____

Electric fencing checklist

Post Construction

- Check voltage on all wires
- Install electric hazard signs (minimum 1 per side – and enough to be seen when approaching the fence from any location).
- Photos taken of entire project showing all sides of the fence, energizer, grounding, gates and any special features/concerns

Maintenance

Daily:

- ensure fencer is on
- Check for any items falling on fence

Weekly:

- Walk fence line
- Remove any vegetation growing on fence line
- Check for digging around the fence line
- Test voltage of fence line

Electric fencing checklist

Waiver of Liability

I, the undersigned, hereby assume liability for any and all issues that may arise from the installation of the electric fence provided by WildSafeBC. Furthermore I, the undersigned, state that by installing this fence on my property that I have checked on all local bylaws and will operate the fence in accordance with the same. I also, by signing this document waive all ability for me or my estate to bring any form of legal action against WildSafeBC for any issue that may arise from the installation of the aforementioned electric fence.

I, the undersigned, also agree to maintaining the electric fence in good operating condition at all times.
