Peter Sulzle

- Across**

 - Early spring food for a bear
 - Urban versions can be dangerous to dogs and humans.
 - Largest of the bears in BC
 - The largest member of the deer family.
 - Keep this clean so as not to attract bears
 - A young deer
 - A masked hunter of grubs, eggs, and aquatic animals.
 - A type of fence that keeps bears out
 - A term for a male bear.
 - A female moose
 - These attract bears, coyote and deer as well.
 - A plant eater
 - Sweet to have but can attract bears
 - A male moose
 - A meat eater
 - Can attract wildlife to your property
 - Pick these before they attract bears
 - This member of the dog family is at home in urban settings.
 - Doing this while walking helps to warn bears of your approach
- Down**

 - The bear's greatest sense
 - Name for animals that hunt other animals
 - Will eat both plants and animals
 - Wapiti is another name for this animal
 - A large footed cat.
 - A first fruit of the season that bears also love
 - Number one bear attractant in BC
 - The largest of BC's cats.
 - Helps to keep deer away from your plants
 - The fore-runner of today's domestic dog.
 - Need an electrified coop to keep predators away
 - Most effective at deterring a bear attack.
 - The smallest of our three wild cats.
 - A large aquatic rodent
 - Can attract rats and bears if not working properly.
 - A young moose
