

WILDSAFE RANGERS

Fall ACTIVITY #3

year end report

Congratulations!

You've made it through a year of WildSafe Ranger challenges!

your mission

This means you've spent a whole year observing nature and learning about the causes of human-wildlife conflict. We bet you made some pretty cool observations along the way and we want to hear all about them!

Now is your chance to share your favourite parts of the program and the coolest things you learned or saw along the way.

Your mission this month is to complete the Year-End WildSafe Ranger Report on the following page. Your feedback will help us make the WildSafe Ranger program even better. WildSafeBC might even end up using your stories and ideas on our website!
www.wildsafebc.com

Thank you for helping keep wildlife wild and our communities safe!

year end report

WildSafe Ranger Name: _____

Home Town: _____ Date: _____

1. All animals share the same basic needs, including: _____ ,
_____, and _____.

2. Human-wildlife conflict often results from wild animals finding _____ in town.

3. We can help prevent human-wildlife conflict in our communities by keeping all potential wildlife attractants inaccessible (out of reach) to wildlife. (Check one)

true or **false**

4. What was your favourite WildSafe Ranger Activity?

5. What surprised or interested you the most about what you learned as a WildSafe Ranger?

6. Describe the actions you and your family have taken to manage backyard attractants since starting the WildSafe Ranger Program:

7. How will you share what you've learned with your friends, family and neighbours?
