

Help an adult check for attractants around your campsite. What items need to be stored in a hard-sided vehicle or a food locker and NEVER in your tent?

Be safe while out on the trails! Are you travelling in a group and making noise so you do not startle a bear?

**If you see a bear, do not approach it
and DO NOT RUN or yell at the bear.
Stay calm, back away slowly. Find an adult,
and together, give the bear space.**
